### DETAILED ACTION

1. The examiner of your application has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group Art Unit 1648, Examiner Salvoza.

2. Claims 1-28, 34-36 have been canceled. Claims 29-31 have been amended.

3. Claims 29-33 are pending and under consideration.

### *Double Patenting*

### MAINTAINED

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 29-33 were rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 23-25, 28 and 31 of U.S. Patent No. 6,372,206 B1.

Art Unit: 1648

Claims 29-33 were rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 3, 11 of U.S. Patent No. 5,906,816.

Applicant submits that “treating” a disease is distinguishable from “preventing a relapse in a mammal with chronic, relapsing-remitting multiple sclerosis,” and thus it is not an obvious variation and included a declaration by Dr. Chih-Ping Liu in support.

Applicant’s arguments are considered but found unpersuasive.

The term “treating” is broadly defined in the specification as “administering a therapeutic substance effective to reduce the symptoms of the disease and/or lessen the severity of the disease [0108].” Lessening the severity of the disease encompasses preventing a relapse in a mammal with chronic, relapsing-remitting multiple sclerosis. Thus the application is an obvious species to the methods of treating outlined in the cited U.S. Patents. Further distinction is necessary to distinguish between the methods of the instant application and the methods of the cited U.S. Patents.

The rejection is maintained for reasons of record.

### ***Claim Rejections - 35 USC § 102***

Claims 29-34 were rejected under 35 U.S.C. 102(e) as being anticipated by ‘206 Patent and the ‘816 patent.

Applicant submits that the present application is a continuation of the cited references and cannot be anticipated by them.

Applicant’s arguments are considered and found persuasive. The rejection is withdrawn.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
